CLIENT TESTIMONIALS

"I was given a very last minute program by a client, and decided to give Aardvark a try. They were very responsive to my program needs, and had a vehicle, crew and logistics nailed down in less than a week. In addition, our tour ended up having some scheduling issues with make-up dates and weather, which extended our tour by a couple of weeks. The Aardvark team was able to make the necessary adjustments to keep our multi city tour operating smoothly. Given another project opportunity, I wouldn't hesitate to give Aardvark a call again."

- Vince, Senior Director – Experiential Marketing

"It's a pleasure working with the Aardvark team. From the vehicle selection process to the ongoing customer service, their team can't be beat. I will work with Aardvark Event Logistics again and I suggest you do the same."

- David, Producer

"We came to Aardvark when we needed to produce a customized trailer in a short time frame and needed a partner who could assist us throughout the process from start to end and provide a certified driver for the entire tour. Aardvark came through for us on all facets; they provided an incredible trailer with a fully functional commercial grade kitchen and outdoor kitchen/stage set, along with signage and wrapping the trailer to the highest standards. Our client loved the trailer design, along with the celebrity chefs that cooked in the kitchen as they always said how functional the mobile kitchen was for their needs. Aardvark came through for us and we look forward to continuing our partnership with them for future programs."

- Rob, Account Director

"It has been great working with you all AND I am so happy that you have the procedures in place that you do! It is good business."

- Monica, Producer

"I have been impressed with your work and capabilities and if an opportunity arises, Aardvark will be on top of the list to call."

CLIENT TESTIMONIALS

"Just wanted to drop you an email to say the trailer is beautiful. I'm thrilled, and I'm sure EA and the NBA will be as well. Thanks for all of your work on this, and please thank your entire crew for me."

- Josh, CEO

"Once again, I have really enjoyed working with you guys. As my Program Manager, you made this Tour run smooth. I have worked for many companies, and none have handled problems or stress as good as Aardvark has. You guys never freak out, I never freak out, and that keeps things looking perfect in the eyes of the client. I definitely want to get back on with you guys, and get my wife on board with me. We will keep our options open and contact you as soon as we are available to see if you have any possibilities."

- Patrick, Program Manager

"Awesome work. Many thanks."

- Michael, Creative Director

"I've collaborated with Aardvark on several levels. In two instances, they were able to do something I was not--sell my custom-designed mobile marketing trailers to brands in need. They acted (incredibly) professionally "in the middle" serving as my selling agent, and were able to get very near to my "ask". Next, I have been able to turn to them with a specific client project, in search of a piece of equipment that would align with both the need and the budget. And, similarly, they were able to accommodate. I don't honestly know of anyone else in our industry who can buy, sell and produce (tours) as they can. Best of all, when I met them I was a "competitor". Within months, they converted me into not only a friend, but a VERY satisfied "believer"."

- Stephen, CEO

"You guys are great and I appreciate your flexibility in understanding what we are dealing with on my end. This is a sign of not just a good vendor, but a good partner."

DRIVERS AND TOUR STAFF

"I enjoyed the entire experience working with the Aardvark team. They over delivered on every aspect of the job, from wrapping our tour bus to being flexible with our schedule and showing up at our first tour date to ensure everything was running smoothly. I look forward to working with them again in the near future."

"I wanted to thank you for all your help on the logistics of the tour these past few months. It was a pleasure working with you and I hope we will get the opportunity to work together again in the near future. Also, I mentioned to your driver what a great job he did during the tour and wanted to say the same to you. He was truly a pleasure to work with and went way above and beyond to make the tour the success that it was. I would give him my highest recommendation for future projects."

"Aardvark drivers are consummate professionals. They are intuitive industry veterans that 'get it'. Aardvark drivers keep our equipment in tip top shape. We always feel confident that our gear is being maintained above the standard we set. The drivers are extremely knowledgeable about USDOT regulations and restrictions. Our company utilizes cutting edge technology that is custom built from the ground up. We need intelligent, thinking people that can traverse between, technology, driving and consumer interaction. Aardvark provides us with this triple threat."
